SAMPLE REPORT — fictional vessel and invented data, made to show the layout and content only. Not a real ship.

VESSEL VOYAGE REPORT · 12 MONTHS

SAMPLE BULKER

Period: 13 Oct 2025 – 13 Oct 2026
Generated: 13 Oct 2026, 06:00 UTC
Report ID: VVR-2026-0001

IMO **9000001**	MMSI **352000001** (was 671000001)	Flag **Panama** (Togo until 2 Jun 2026)	Type **Bulk carrier, Supramax**
Deadweight **57,000 t**	Built **2011**	Current status **In port, Novorossiysk, Russia**	Sanctions lists (OFAC, EU, UK) **No match on IMO**

21	6	241	121	2	3
port calls	countries called at	days in port, at anchor or stopped	days sailing	AIS-off periods, 76 h in total	high or medium red flags

Summary

Over the 12 months to 13 October 2026, SAMPLE BULKER made 21 port calls in 6 countries. It traded mostly between Black Sea loading ports (Constanța in Romania and Novorossiysk in Russia) and Eastern Mediterranean ports in Egypt, Turkey, Lebanon and Libya, where its draught shows it discharged. AIS does not broadcast the cargo, so cargo type must be confirmed from documents.

The ship's AIS signal was off 2 times, for 76 hours in total. **The most serious finding is a 63-hour dark period on 3–6 January 2026 between the Kerch Strait and Crimea, during which the draught rose from 7.0 m to 13.2 m with no port call.** That pattern is consistent with loading cargo at an undeclared location. A possible ship-to-ship transfer off Greece in June 2026 is the second concern. The ship is now in port at Novorossiysk, Russia, since 10 October 2026.

Red flags

HIGH **AIS off for 63.3 hours near Crimea, 3–6 Jan 2026.** Last seen 22 nm SW of the Kerch Strait; reappeared 31 nm south of Sevastopol. Draught 7.0 → 13.2 m while dark, no port call seen. See event 8.

HIGH **Possible ship-to-ship transfer, 19–20 Jun 2026,** 7 nm off Cape Maleas, Greece. Another bulk carrier within 500 m for 11 hours; draught 13.1 → 11.0 m. See event 21.

MEDIUM **AIS off for 12.5 hours in the Aegean Sea, 14–15 Apr 2026,** west of Lesbos, in an area with good coverage. Draught unchanged. See event 17.

INFO **Flag and MMSI changed, 2 Jun 2026:** Togo → Panama, during a 29-day stay at a repair yard in Tuzla, Istanbul.

Track over 12 months

Lines join reported positions; red dotted lines join the last position before and the first position after an AIS-off period. Map: Natural Earth via Basemap.

Where the ship went, step by step

Every stop, in date order. Times are UTC. "Stayed" counts from arrival to departure as seen in AIS. Draught is typed in by the crew, so "loaded" and "discharged" are indicators, not proof.

1 **Port call** 13 Oct 2025 → 19 Oct 2025
Arrived at the **port of Constanța, Romania**. Stayed **5.9 days**, left 19 Oct 2025; draught 7.1 → 12.9 m (likely loaded).

2 **Port call** 25 Oct 2025 → 5 Nov 2025
Arrived at the **port of Alexandria, Egypt**. Stayed **11.2 days**, left 5 Nov 2025; draught 12.9 → 6.8 m (likely discharged).

3 **Anchorage** 7 Nov 2025 → 10 Nov 2025
Waited at **Mersin outer anchorage, Turkey**. Stayed **3.2 days**, left 10 Nov 2025; draught unchanged at 6.8 m.

4 **Port call** 10 Nov 2025 → 13 Nov 2025
Arrived at the **port of Mersin, Turkey**. Stayed **2.7 days**, left 13 Nov 2025; draught unchanged at 6.8 m.

5 **Port call** 19 Nov 2025 → 28 Nov 2025
Arrived at the **port of Novorossiysk, Russia**. Stayed **9.1 days**, left 28 Nov 2025; draught 6.9 → 13.1 m (likely loaded).

6 **Port call** 4 Dec 2025 → 18 Dec 2025
Arrived at the **port of Damietta, Egypt**. Stayed **14.4 days**, left 18 Dec 2025; draught 13.1 → 7.0 m (likely discharged).

7 **Anchorage** 25 Dec 2025 → 3 Jan 2026
Waited at **Kavkaz anchorage, Kerch Strait, Russia**. Stayed **8.8 days**, left 3 Jan 2026; draught unchanged at 7.0 m.

8 **AIS off** 3 Jan 2026, 18:20 → 6 Jan 2026, 09:40 UTC HIGH

AIS signal switched off 22 nm SW of the Kerch Strait, off Russia. Signal back on 31 nm S of Sevastopol, Crimea (Ukraine, occupied by Russia). **Dark for 2.6 days** (63.3 h). Draught 7.0 → 13.2 m (likely loaded) while dark, with no port call seen.

9 **Port call** 11 Jan 2026 → 19 Jan 2026

Arrived at the **port of Iskenderun, Turkey**. Stayed **8.3 days**, left 19 Jan 2026; draught 13.2 → 6.9 m (likely discharged).

10 **Port call** 25 Jan 2026 → 3 Feb 2026

Arrived at the **port of Constanța, Romania**. Stayed **9.3 days**, left 3 Feb 2026; draught 6.9 → 12.7 m (likely loaded).

11 **Anchorage** 9 Feb 2026 → 16 Feb 2026

Waited at **Alexandria outer anchorage, Egypt**. Stayed **6.3 days**, left 16 Feb 2026; draught unchanged at 12.7 m.

12 **Port call** 16 Feb 2026 → 27 Feb 2026

Arrived at the **port of Alexandria, Egypt**. Stayed **11.5 days**, left 27 Feb 2026; draught 12.7 → 6.8 m (likely discharged).

13 **Port call** 5 Mar 2026 → 13 Mar 2026

Arrived at the **port of Novorossiysk, Russia**. Stayed **8.2 days**, left 13 Mar 2026; draught 6.8 → 13.0 m (likely loaded).

14 **Stop at sea** 18 Mar 2026 → 20 Mar 2026 INFO

Stopped at sea, **drifting 18 nm N of Port Said, Egypt**. Stayed **46.0 hours**, left 20 Mar 2026; draught unchanged at 13.0 m.

15 **Port call** 20 Mar 2026 → 30 Mar 2026

Arrived at the **port of Beirut, Lebanon**. Stayed **9.6 days**, left 30 Mar 2026; draught 13.0 → 6.9 m (likely discharged).

16 **Port call** 5 Apr 2026 → 13 Apr 2026

Arrived at the **port of Constanța, Romania**. Stayed **7.8 days**, left 13 Apr 2026; draught 6.9 → 12.8 m (likely loaded).

17 **AIS off** 14 Apr 2026, 22:10 → 15 Apr 2026, 10:40 UTC MEDIUM

AIS signal switched off 14 nm W of Lesbos, Greece (Aegean Sea). Signal back on 12 nm NW of Chios, Greece. **Dark for 12.5 hours** (12.5 h). Draught unchanged at 12.8 m while dark, with no port call seen.

18 **Port call** 18 Apr 2026 → 1 May 2026

Arrived at the **port of Alexandria, Egypt**. Stayed **13.3 days**, left 1 May 2026; draught 12.8 → 6.9 m (likely discharged).

19 **Shipyard** 5 May 2026 → 3 Jun 2026 INFO

Stayed at **Tuzla shipyard area, Istanbul, Turkey**. Stayed **29.2 days**, left 3 Jun 2026; draught unchanged at 6.9 m. Long stay at a repair yard: likely drydock. Flag changed from Togo to Panama during this stay (2 Jun 2026).

20 **Port call** 6 Jun 2026 → 14 Jun 2026

Arrived at the **port of Novorossiysk, Russia**. Stayed **8.5 days**, left 14 Jun 2026; draught 6.9 → 13.1 m (likely loaded).

21 **Possible STS** 19 Jun 2026 → 20 Jun 2026 HIGH

Stopped **7 nm off Cape Maleas, Greece (Laconian Gulf)**. Stayed **11.0 hours**, left 20 Jun 2026; draught 13.1 → 11.0 m (part cargo moved). **Another bulk carrier stayed within 500 m for 11 hours**, both under 1 knot, outside port limits.

22 **Port call** 23 Jun 2026 → 3 Jul 2026

Arrived at the **port of Tripoli, Libya**. Stayed **9.6 days**, left 3 Jul 2026; draught 11.0 → 6.8 m (likely discharged).

23 **Port call** 10 Jul 2026 → 17 Jul 2026

Arrived at the **port of Constanța, Romania**. Stayed **7.7 days**, left 17 Jul 2026; draught 6.8 → 12.9 m (likely loaded).

24 **Port call** 22 Jul 2026 → 4 Aug 2026

Arrived at the **port of Alexandria, Egypt**. Stayed **12.8 days**, left 4 Aug 2026; draught 12.9 → 6.9 m (likely discharged).

25 **Port call** 10 Aug 2026 → 18 Aug 2026

Arrived at the **port of Novorossiysk, Russia**. Stayed **8.3 days**, left 18 Aug 2026; draught 6.9 → 13.0 m (likely loaded).

26 **Port call** 23 Aug 2026 → 2 Sep 2026

Arrived at the **port of Mersin, Turkey**. Stayed **9.8 days**, left 2 Sep 2026; draught 13.0 → 6.9 m (likely discharged).

27 **Port call** 9 Sep 2026 → 17 Sep 2026

Arrived at the **port of Constanța, Romania**. Stayed **7.8 days**, left 17 Sep 2026; draught 6.9 → 12.8 m (likely loaded).

28 **Port call** 22 Sep 2026 → 4 Oct 2026
Arrived at the **port of Damietta, Egypt**. Stayed **12.3 days**, left 4 Oct 2026; draught 12.8 → 6.9 m (likely discharged).

29 **Port call** 10 Oct 2026, 09:00 UTC → still there NOW
Arrived at the **port of Novorossiysk, Russia**. In port now: **2.9 days so far**. Arrival draught 6.9 m.

Time by country

Country	Ports	Calls	Days
Egypt	Alexandria, Damietta	6	81.8
Turkey	Iskenderun, Mersin	3	53.3
Russia	Novorossiysk	5	45.8
Romania	Constanța	5	38.6
Lebanon	Beirut	1	9.6
Libya	Tripoli	1	9.6

Days include anchorage and shipyard time; stops at sea are not counted against a country.

How this report was made

- Positions: AIS from coastal and satellite receivers, via [provider name].
- Port call: under 0.5 knots for 6 hours or more within 5 nm of a port or inside an anchorage.
- AIS off: no position for more than 6 hours at sea.
- Locations at sea are described by distance and direction from the nearest named port or landmark.
- Sanctions screening: IMO checked against OFAC SDN, EU and UK lists on the report date.

AIS-off periods in detail

Date	Signal lost at	Signal back at	Dark	Draught	Severity
3 Jan 2026	22 nm SW of the Kerch Strait, off Russia	31 nm S of Sevastopol, Crimea (Ukraine, occupied by Russia)	63.3 h	7.0 → 13.2 m	HIGH
14 Apr 2026	14 nm W of Lesbos, Greece (Aegean Sea)	12 nm NW of Chios, Greece	12.5 h	12.8 → 12.8 m	MEDIUM

Limitations

AIS can be switched off, spoofed or jammed, and coverage at sea is not continuous, so a gap is not proof of wrongdoing and a clean report is not proof of compliance. Cargo type is not broadcast. This report supports due diligence; it does not replace documents, sanctions advice or legal review.
